

## Preserve Craig Report to Board of Supervisors

November 6, 2025

The Preserve Craig event was a great success on October 25. There was much enthusiasm for the goals of Preserve Craig.

Some of these plans are:

- Night sky initiative- educational program with the school.
- Working with USFS in the rebuilding of the Hanging Rock Raptor Observatory and maintaining Fenwick Mines shelter
- Creating a pollinator garden in New Castle.
- Educating the public to create awareness of water quality, light pollution of the night sky, and plant and insect diversity.
- Continuing to monitor and hold accountable Mountain Valley Pipeline for any dangers to the public or our environment.
- Remaining vigilant for other large-scale projects such as Data centers, Solar farms, Wind farms which would impact the resources and people of Craig County.

Our next meeting will be at 2 pm, January 11, 2026 at the New Castle Fire Department.

Board members are always invited to attend! Thank you for your service. Special thanks to Jason Matyas and his family for providing a delicious dinner for the event.

Marjorie Lewter, Preserve Craig
